

Non-Refund Policy – Bervic Digital

At Bervic Digital, we understand that investing in a web development project is a significant decision, which is why we require a 60% upfront payment before starting the project. This payment is considered non-refundable and will be used to cover the costs of resources, time, and effort put into the project by our team.

Once the 60% payment has been made, the project will proceed, and Bervic Digital will not issue a refund for any reason, including but not limited to dissatisfaction with the project outcome, change of mind, or failure to complete the project.

By making the 60% upfront payment, you acknowledge and agree to the terms of this Non-Refund Policy. We encourage you to carefully consider your needs and discuss any concerns with our team before making the payment.

Please note that Bervic Digital may, at its discretion, offer a partial refund in exceptional circumstances, such as the cancellation of a project due to circumstances beyond our control. In such cases, the refund amount will be determined on a case-by-case basis.

If you have any questions or concerns about this Non-Refund Policy, please contact us at contact@bervicdigital.com.
